Create Blueprint Using Zoho Creator

Aim

To design and implement a blueprint in Zoho Creator to manage the investigation case lifecycle in the Student Academic Management application

Procedure:

Step 1: Open the Application

- Log in to Zoho Creator.
- Open your **Student Academic Management System** application.

Step 2: Navigate to Blueprint

- In the application builder, click **Workflow** from the left panel.
- Select **Blueprint**.
- Click **Create Blueprint**.

Step 3: Select the Form

- Choose the **Assignment Details** form (or the form where assignment records are stored).
- Click **Create**.

Step 4: Choose the State Field

Create or select a **Status** field (Dropdown) with the following values:

- Assigned
- In Progress

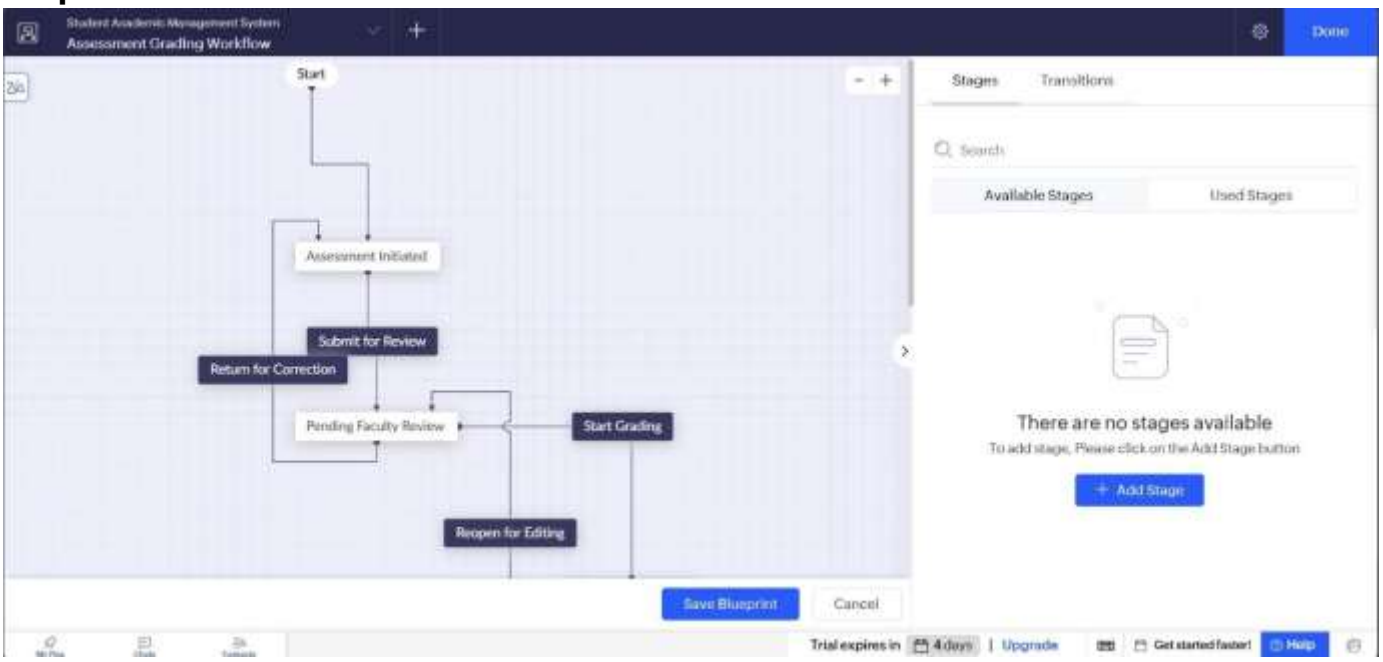

- Submitted
- Reviewed
- Completed

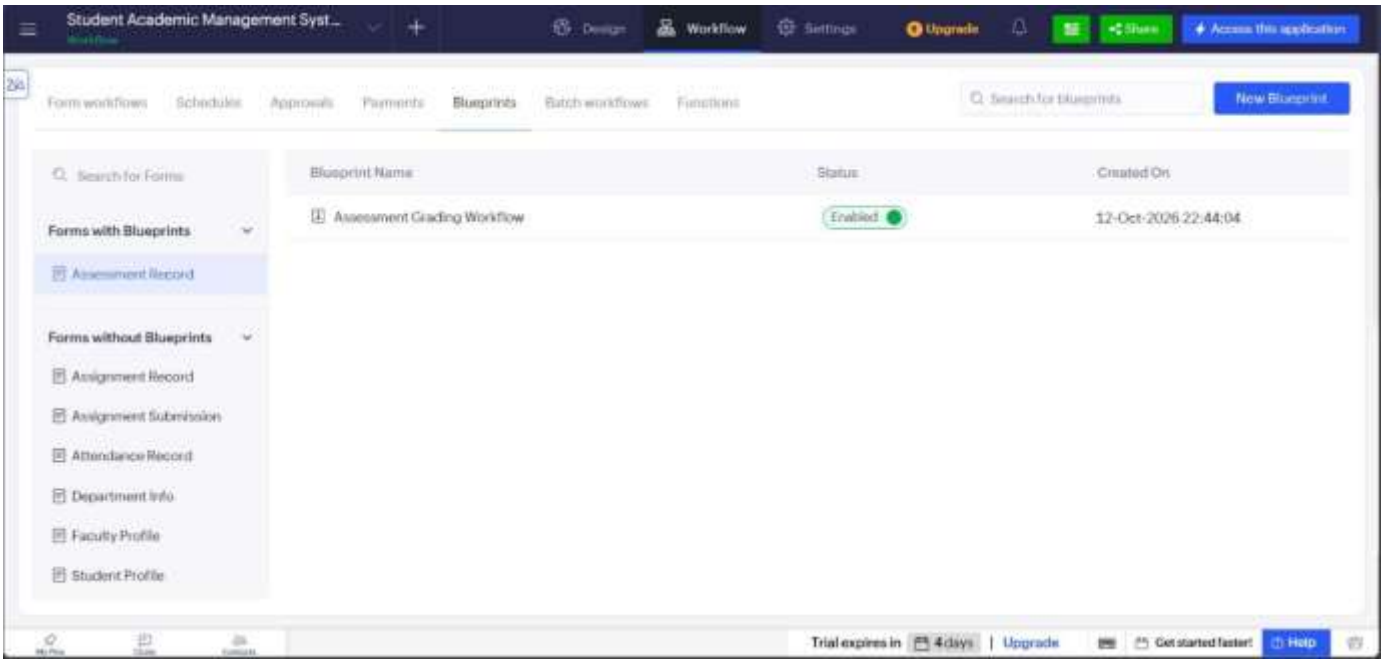

This field will be used by the Blueprint to track the assignment's progress

9. Save and publish the Blueprint.

10. Test the Blueprint by creating a Book_Issue record, moving it to Book Issued, and then using the Return Book transition to mark it as Book Returned

Output

Result

The student academic management blueprint was implemented to manage investigation cases through defined stages and transitions.
